

## Scott Wedgwood

*Business Development Manager*

### Co Driver

On 1st October 2008 Scott Wedgwood celebrates his first year as a Business Development Manager at Woollam Constructions.

Prior to joining Woollams, Scott held the position of Partner in the Planning and Environment section of Queensland's largest law firm. Scott had been a practicing lawyer for close to twenty years, spending the entirety of that time as a litigator. Notwithstanding, Scott spent very little of his time inside courtrooms – Scott became well known for his skills as a negotiator and a lateral thinker, thereby avoiding the expensive trial process as much as possible.

Having spent many years advising people what to do, rather than

doing it himself, Scott was very interested and quick to enter into negotiations with Craig Percival and George Bogiatzis following their approach to him last year.

Scott and Craig go way back, having been mates since they first met in their first year at Newmarket State High School. Following High School, the mates often discussed a future in which they would develop property together. As fate had it, Scott joined Woollams and is now helping drive the business. Scott is now relishing being involved in making things happen rather than advising from afar.

During the past twelve months Scott has been instrumental in strategic and business planning, both on a Woollams-wide and regional level. Over the next twelve months Scott will be working hard to make the design and construct arm of Woollams a success as well as helping George and Craig with the day to day running of Woollams.

Scott has three kids, Harrison (eight years), Bronte (four years) and Jasper (two months). When given a leave pass from his duties at home Scott has a passion for Porsches and is often endeavoring to achieve a new 'Personal Best' at various race car tracks around South East Queensland. This passion to succeed and improve is borne out in Scott's work days!
