**Client Comment:** *“Woollam Constructions has been involved with building work at the Good Shepherd Lodge for a number of years and in the time I have known them they have proven to be very professional. They have strong values and work ethics and are always happy to take the time to work things out with us.*

*It is also important to us to have people that are sensitive to our needs on site. Our residents are our priority and the team at Woollam’s understand this, and are willing to keep disturbances to a minimum for the people living and working here.*

*We are happy to negotiate with Woollam rather than tendering, we trust them, we know they are going to look after us, and in return we will look after them. We have a great working relationship.”*
