

## Public Facilities

## Souths Leagues Club, Mackay

**Client:** Southern Suburbs Football Club

**Construction completed:** 2007

**Construction costs:** \$6.6 million

The refurbishment of Souths Rugby League Club was rolled out in three main stages and included renovations to the existing clubhouse and the club's new extension. New car-parking facilities also were added along with function rooms, bar and children's play area, a public viewing area, and new gaming rooms. The bistro also received a makeover. Trading continued throughout the refurbishments and the club's management, employees and patrons were always interested in the changes being made to the club and were warmly thought of as part of the Woollam's' team.

**Client Comment:** "Woollam Constructions completed major expansion works for Souths Leagues Club Mackay in 2001. So satisfied were the club directors with their performance on all fronts, we hoped they would again be the successful bidder for our 2007 development. This proved to be the case, and we are even more pleased with their on-time, on-budget, quality construction, particularly in boom mining times where the shortage of skilled tradesmen is highlighted regularly in the media".

Grant McLennan, Chairman

"Woollam's commitment to working with the Club was outstanding, with the staff thoroughly informing us of updates and arranging meetings to discuss plans further. Team members from Woollams were always on hand for after hours calls and were always more than happy to oblige to the any situation. Disruptions to internal operations were kept to an absolute minimum".

Kingsley Theiber, General Manager
