## Ian Weigh Motors, Rockhampton

**Client:** Ian Weigh Motors Rockhampton

**Construction completed:** October 2004

**Construction costs:** \$1.88 million

Ian Weigh Motors showroom complex was based on a design brief to create a modern and prestige state-of-the-art showroom with a roof design requiring a considerable amount of planning and organization.

With an innovative use of materials throughout, the finished product has been described as a masterpiece in design and construction taking the car dealership in Rockhampton to an unprecedented level.

**Winner QMBA Project:** Central Queensland Retail Facilities (up to \$2m) 2006, Central Queensland Project of the Year 2006, and State Retail Facilities (up to \$2m) 2006.

BRISBANE ROCKHAMPTON MACKAY BALLINA

**Client Comment:** "In January 2004, we commissioned Woollam Constructions to construct our New Showroom facility in Rockhampton. The scope of the works was of grand scale with renovations, new building and a super request from us to have continuity of trading from the premises.

*Woollam's stood out as the obvious choice, not only by virtue of the fixed price quotation and their professional and friendly manner, but more so due to the transparent and detailed approach to the preparation of the quote. Implicitly, we were totally confident that they had done their homework which augured well for the timely and efficient execution of the project."*
